For: FINANCIAL MANAGEMENT SYSTEM

RESPONSE TO SUPPLEMENTAL NOTICE OF ALLOWABILITY

Commissioner for Patents
Washington, D.C. 20231

Sir:

The undersigned respectfully provides the following to complete the record following a telephone interview with Examiners Trammell and Greene on November 1, 2005.

Specifically it was pointed out that Supplemental Notice of Allowability dated October 13, 2005 was correct in so far as the allowed claims were defined but, the Examiner's Amendment attached thereto was unnecessary and incorrect.

It was pointed out that this Examiner's Amendment was identical to a previous one dated January 18, 2005 which introduced errors into the claims. The applicant then filed an Amendment under 37 C.F.R. 1.312 dated February 9, 2005 correcting the claims. This amendment was entered on June 24, 2005.

The final fee was paid on March 28, 2005.

Examiner Trammell indicated during the interview on November 1, 2005 that the Examiner's Amendment attached to the October 13th communication would be cancelled and not

be part of the record for this case. The allowed claimed would then remain as per the
Amendment of February 9th. It was indicated that an Interview Summary would be prepared.

Respectfully submitted,
